4G HIGH GAIN MAGNETIC ANTENNA

High-gain omnidirectional antenna with magnetic base for receiving 5G / 4G / 3G / 2G signals

TECHNICAL DATA SHEET

FEATURES

Gain	12 dBi
Connector	SMA
Installation	Magnetic base
Frequency range	698 - 2700 MHz
Dimension	90 x 250 mm
Cable length	3 m

MOUNTING

The antenna must be mounted on a flat metal surface facing upwards, avoiding placing metal objects on top of it to ensure correct functioning.
Place the antenna away from interference sources, to achieve the best signal reception.
